

We are recruiting volunteers who protect our city.

Volunteers in Meguro City

Emergency language volunteer

"Emergency language volunteer system" is set up in Meguro City for encouraging those residents who can speak foreign languages to help non-Japanese-speaking foreigners in the event of a disaster such as earthquakes.

Emergency language volunteers provide support for non-Japanese-speaking foreign residents to the extent possible on a voluntary basis from the time of preparation with disaster prevention measures, at disaster through to the period of restoration from disaster, including participation in disaster prevention drills, interpretation and translation of disaster information in emergency, answering to inquires and consultations from non-Japanese-speaking foreign residents, and interpretation at area evacuation sites during restoration and reconstruction period.
